

2023-2024 Academic Policy

Please be sure to read all of the below information.

Academic Requirements:

Scholars must meet the following academic requirements:

- Maintain at least a 2.0 Grade Point Average (GPA) or "C" average each semester
- Make forward progress towards degree or certificate

Must be in good academic standing, meeting the school's academic policy and must be eligible for federal financial aid based on grades and satisfactory academic progress.

Must complete and/or gain credit and/or hours for term courses. Withdrawing from classes (self or instructor initiated) may be considered minimal progress.

Warning:

Semester grades will be confirmed with each Scholar's post-secondary institution. Scholars who do not meet the academic requirements outlined above will be placed on a warning. Scholars will have one semester to meet the academic requirements in order for the warning to be lifted and to return to good standing.

Probation:

Scholars who have received a warning and continue to not meet the academic requirements outlined above for a second semester will be placed on probation. Scholars will again have one semester to meet the academic requirements in order for probation to be lifted and to return to good standing.

Removal:

Scholars who do not meet the academic requirements while on probation and/or misuse their NJFC Scholars funding will be removed from the NJFC Scholars Program. Scholars who are academically dismissed or dismissed as a result of disciplinary action from their school will be automatically removed.

Removed Scholars are able to appeal the decision within 30 days of removal directly to the Department of Children and Families. Scholars granted an appeal will automatically be placed on probation for the student's next active term and must meet the academic requirements in order to remain in the NJFC Scholars Program.

Reapplying After Removal:

Scholars who are removed from the program may reapply after submitting official documentation (i.e. transcript) showing one semester/at least 6 credit hours of academic improvement with at least a 2.0 semester/term GPA.
